# MSP Reporting Requirements: Clinical Trial Agreement

- Obligation of clinical site to disclose information to research sponsor for Section 111 reporting obligations should be addressed in clinical trial agreement
- Clinical trial agreement may require information to be provided when a subject is injured (to assess Medicare status) and when payment is made or when responsibility otherwise assumed (to meet reporting obligation)
- Requests by sponsor vary and some seek to impose additional obligations. Examples:
  - Permit the sponsor to review all research-related injuries before claims are submitted to Medicare to assess whether the sponsor has a payment obligation?
  - Require the subject/clinical site to comply with information requirements or administrative process as a condition of payment for research-related injuries?
- Sample “middle ground” language provided

# MSP Reporting Requirements: Clinical Trial Agreement

## Sample Basic Language

*Institution and Principal Investigator acknowledge that, pursuant to Section 111 of the Medicare, Medicaid, and SCHIP Extension Act of 2007, Sponsor may have an obligation to confirm the status of and submit certain reports to the Centers for Medicare & Medicaid Services with respect to Medicare beneficiaries who participate in the Study. Subject to applicable law, Institution and Principal Investigator therefore agree to provide to Sponsor or an agent of Sponsor information relating to Subjects, including but not limited to, name, [social security number], \*date of birth, gender, and [Medicare identification number]\* and to otherwise cooperate with Sponsor, all as reasonably necessary for Sponsor to meet its Section 111 reporting obligations. Sponsor agrees that Sponsor and its representatives will only use and disclose any such information provided as reasonably necessary to meet the Section 111 reporting obligations.*

*\* Requirement to report this information will be eliminated.*

# MSP Reporting Requirements: Informed Consent Form

- Informed consent form should address the disclosure to research sponsor to meet Section 111 reporting requirements
- Key points
  - Collection of information by sponsor (or someone acting on sponsor's behalf)
  - Identification of information collected
  - Reason the information is being collected
  - Information collected will be shared with third parties (including CMS)
- Sample “middle ground” language provided for informed consent form
- Note: HIPAA research authorization language should be consistent

# MSP Reporting Requirements: Informed Consent Form

## Sample Basic Language (Options for More/Less Specificity)

*Federal law requires Sponsor to inform the [Centers for Medicare & Medicaid Services (the agency responsible for administration of the Medicare program)] [federal government] when Sponsor is going to pay for treatment of an injury to a Medicare beneficiary. Sponsor or its representatives may need to collect certain personal information about you such as your name, date of birth, gender, [social security number, and Medicare identification number (if you have one)]\* [requirement will be eliminated in future]. Sponsor needs this information in order to comply with a [Medicare] [government] reporting obligation. This information may be collected directly from you, or from researchers, physicians, or other health care providers who treated your problem or injury. This information and also information about your injury or other health problem may be shared with others, including Sponsor representatives, Sponsor's insurance company, and the [Centers for Medicare & Medicaid Services] [federal government].*

*\*Requirement to report this information will be eliminated.*
